

## Services

### Technical Consultancy

Mediabooole technical consultancy services can contribute to your business in multiple ways:

- **Draft patent** documents and **claims**.
- Prepare **technical feasibility** studies.
- Prepare **project proposals**.
- **Research** emerging technologies and **standards** to help you embrace and extend them.
- **Documentation** of technical **requirements** and responses to **RFI/RFP**.
- **Draft** technical documents to obtain tax benefits.
- **Design** and **develop** standalone or integrated **data** and **voice** telecommunication systems.
- **Simulate, model (mathematically, 3D animation)** and **prototype** innovations you develop.

### Project Management

Mediabooole offers **project management** services from inception to release. We have consistently proven our ability to ensure team coordination, high quality engineering and reliable delivery in a variety of projects relating to **telecommunications** and the **Internet**. In addition, we provide our clients with a customized secure **project tracking** interface that delivers real-time project status.

### Execution

Mediabooole undertakes software design and development with expertise in:

- Voice over IP, data communications, wireless, mobility solutions, Internet.
- C, JAVA, Servlets, Perl, CGI scripts, HTML, MS SQL, Oracle.
- IP, TCP, Mobile IP, UDP, RTP, Ethernet, IEEE 802.11b (WiFi), SIP.
- OPNET, MATLAB, BONEs, MS Project, MS Access, MS Office.

### Patent Preparation Service

- Entrust your patenting efforts to experts with both **R&D backgrounds** and **patent preparation** experience.
- **Reduce costs** by **40-50%**.
- **Reduce delays** by at least a factor of **2**.
- Obtain **realistic** and **practical** conclusions regarding **patentability** of your innovations, **not just** a search result in patent databases.

## Company Profile

Mediabooole Solutions provides **consultancy** services in the **R&D of IP Telecommunications**.

Our service is tailored to meet specific needs, budgets and deadlines and includes technical research and evaluation, innovation, solution design (hardware, software or combination), and project management.

Mediabooole is a privately held company and is headquartered in Montréal, Canada.

## Approach

### Projects

Mediabooole tackles projects through a series of steps:

- **Understand** your needs.
- **Draft a feasibility** report describing the **scope** of what we will do, **timeline** with clear **milestones**, and estimated **cost** (subject to a fee).
- **Prototype** the concept and review together.
- **Feedback** progress to you throughout the project and maintain two-way **discussions**.
- **Deliver** the final product (research report, technical recommendations, software, etc.).

### Credos

- Hard work
- Passion
- Integrity
- Speed
- Perfectionism

## Target Clients

Mediabooole customers are **startups**, **established businesses** and **government** bodies who have interests or projects in the **telecommunications** or **software** industry.
